

## **FSST Health Center**

### **Special Diabetes Program for Indians (SDPI) Activities Coordinator**

**Summary:** Key member of the Tribal Health Center's SDPI Team and Health & Wellness and Diabetes Prevention Strategy. Responsible for coordinating recreation activities, community outreach and supporting Health & Wellness programming for those at risk for diabetes as well as diabetic patients. Participates in developing and executing diabetic education and other wellness activities in collaboration with the tribal clinic's public health nurses and community outreach and education team. Supports diabetic clinic by assisting with diabetic screenings (e.g. checking vitals, assists patients with use of glucometer, foot checks, and completes health questionnaires). Maintains constant and positive communication with tribal partners and community agencies and facilitates collaborations with the goal of advancing diabetic education and disease prevention.

#### **Education and/or experience:**

High school diploma or GED required  
2-3 years' experience working in a direct patient care setting  
Community ties to the Santee Sioux Tribal community, ideal  
Excellent customer service skills and written & oral communication.  
Demonstrated ability to communicate effectively with diverse populations.  
Self-starter with a history of setting goals and delivering results  
Team player.  
Valid driver's license.

Must submit to pre-employment drug and alcohol testing and P.L 101-630 background investigation.
